**GOAL**

Establish 70’ fuel reduction perimeter around Pine Hill, land-locked by private property (collaboration between CDFW and CNPS).

**El Dorado Chapter CNPS tasks Spring 2017:**
- Conduct Rare Plant Treasure Hunt surveys to red flag rare plants to leave alone.
- Locate burn piles to avoid all federally listed species.

**Chapter and CDFW botanists mapped 70 unreported occurrences of six rare plants:**

- *Ceanothus rodickii* (Pine hill ceanothus)
- *Chlorogalum grandiflorum* (Red hills soaproot)
- *Fremontodendron decumbens* (Pine hill flannelbush)
- *Galium californicum* ssp. Sierra (El dorado bedstraw)
- *Packera layneae* (Pine hill ragwort)
- *Wyethia reticulata* (El dorado mule ears)
